

## Wintertime

The snow glistens in the twilight  
Faint shadows gather from every corner  
Stillness settles over the landscape  
A fresh fallen snow has come in the air

Small tracks can be seen in the woodlands  
Clouds are still hovering in the sky  
A few stars can be seen briefly shining  
Things look clean and renewed

Winter holidays are upon us at last  
Warmth and friendship can be found  
Pleasant smiles and greetings from strangers  
And the closeness from friends and family

May your holidays be always enjoyable  
Forget the minor troubles from the year  
Just focus on the good times about you  
Look forward to the expectations that abound
